AI Engineer · Frontend
design → motion → no-code → front → AI

Pedro Benito

I build with Angular, Bubble and AI tools, combining traditional development and no-code to ship fast, scalable solutions.

Profile

I started by designing interfaces; today I build complete products. Every stage is still part of how I work.

Experience

4 roles · 2010 — today

Monty Global Payments SA

Frontend Developer

Sep 2021 — Present
5 yrs 3 mos

- Development and maintenance of web applications using Bubble and Angular v13+.
- Built two internal applications from scratch for the Compliance Department, digitalizing processes and improving operational efficiency.
- Designed intuitive, user-centered interfaces.
- Optimized performance and usability of web applications.
- Collaborated with multidisciplinary teams in international projects

AV Medios S.L.

Creative Director

Sep 2016 — Jun 2021
4 yrs 10 mos

Led the creative team for corporate and cultural events, both live and hybrid.

- Built the web and digital solutions for hybrid events, which is where I started coding.
- Graphic design, motion graphics and scenography; recording, streaming and content projection.

Almoe AV Rentals (Dubái)
